# Second FRONTPAGE

## Transition to be smooth, say Drilon, Villar

By Jolly Laking-Jordan and MIC C. Calanog/Staff

INTRIGUING SENATE PRESIDENT Franklin Drilon yesterday said he would ensure no gap in the country's leadership when he assumes the post of Senate president in September. Sen. Manuel Villar, second in the line of succession, would be sworn in immediately to the position after Drilon's departure to ensure a smooth transition.

Drilon said he would ensure no gap in the country's leadership when he assumes the post of Senate president in September. Sen. Manuel Villar, second in the line of succession, would be sworn in immediately to the position after Drilon's departure to ensure a smooth transition.

# BUY NOW!

BEFORE PRICES INCREASE!

Prices of Carrier Air Conditioning, both key products in the manufacture of air conditioners and refrigerators, have increased by 100% and 70% respectively as dictated by the world market.

We continue to stand by our commitment to provide you with only the best in quality products and will never compromise the durability, reliability and safety of Carrier air conditioners and Carrier and Refrigerator air conditioners and refrigerators with the use of substandard materials.

We are now committed to raise the price of our air conditioners by an average of 8 to 10% and the price of our refrigerators by 10%.

We are announcing our price increase this early so that you can buy our products now before the price increase takes effect on July 1, 2006.

### Solons Insist '07 polls will push through

Insisting that the 2007 elections will proceed as scheduled, Senate President Franklin Drilon said he would ensure no gap in the country's leadership when he assumes the post of Senate president in September. Sen. Manuel Villar, second in the line of succession, would be sworn in immediately to the position after Drilon's departure to ensure a smooth transition.

## Another militant leader gunned down in Isabela

Bischoffberger et al. and Hagemann

© 2004 Blackwell Publishing Ltd *Journal of Internal Medicine* 255: 103–110

From November 2000 to June 2001, the authors collected data on the prevalence of *S. aureus* in the community in the city of London. The data were collected from a series of 1000 households, each of which was visited by a trained interviewer who collected a sample of *S. aureus* from each household. The data were then analysed using a series of statistical tests to determine the prevalence of *S. aureus* in the community.

# Palace ordered P3-B cut from victims' fund - Etta

By Philip C. Brown

MANILA (Enr.com) — The president's office has ordered a P3-billion cut from the victims' fund established by President Gloria Macapagal Arroyo to help victims of the 1986 People's Revolution.

The order, which was issued on May 25, is the latest in a series of moves by the president's office to reduce the fund's size.

The fund, which was established in 1986, is intended to help victims of the 1986 People's Revolution. It was established by President Gloria Macapagal Arroyo, who was the first president to be elected in a free election since 1948.

The fund was established to help victims of the 1986 People's Revolution. It was established by President Gloria Macapagal Arroyo, who was the first president to be elected in a free election since 1948.

[illegible]

Temperature (°C)	Rate of Polymerization
40	0.1
50	0.5
60	1.5
70	3.5
80	6.5
90	8.5
100	9.5

For instance, in Chicago, a survey put out of the city's public health department found that 10 percent of the city's population had been infected with the virus.

**Mayer says  
he didn't  
move school**

Detailed description of Figure 1: The graph plots the rate of polymerization against the concentration of an inhibitor. The y-axis, 'Rate of polymerization', has major ticks at 0, 0.2, 0.4, 0.6, 0.8, and 1.0. The x-axis, 'Concentration of inhibitor', has major ticks at 0, 0.2, 0.4, 0.6, 0.8, and 1.0. The curve begins at a rate of 1.0 when the inhibitor concentration is 0. It remains relatively high until about x=0.2, then drops sharply, passing through approximately (0.4, 0.5) and (0.6, 0.2), eventually leveling off towards a rate of 0 as the inhibitor concentration approaches 1.0.

## NGO hails DENR logging raid in Sierra Madre

Tribe harassed, threatened by loggers

Figure 1 consists of two panels, (a) and (b), each showing a 1D spectrum of the H&K index. The y-axis for both panels is labeled 'HK' and ranges from 0.0 to 1.0. The x-axis is labeled 't' and ranges from 0 to 100. Panel (a) shows a decreasing trend in the H&K index over time, with the index starting at approximately 0.8 at t=0 and decreasing to about 0.2 at t=100. Panel (b) shows a similar decreasing trend, but the index starts at a higher value of approximately 0.9 at t=0 and decreases to about 0.1 at t=100. Both panels include a legend indicating that the solid line represents the H&K index and the dashed line represents the error.

## Marathon hearings set for Aurora slay

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group (CG) and the experimental group (EG). The CG was divided into two subgroups: the control group (CG) and the control group (CG). The EG was divided into two subgroups: the experimental group (EG) and the experimental group (EG). The subjects were divided into two groups: the control group (CG) and the experimental group (EG). The CG was divided into two subgroups: the control group (CG) and the control group (CG). The EG was divided into two subgroups: the experimental group (EG) and the experimental group (EG).

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a screen. On the screen, there is a starting point (a large circle) and a target (a small circle). The participant's hand is positioned at the starting point. The diagram shows the spatial relationship between the hand, the target, and the visual feedback provided on the screen. The starting point is labeled 'Start' and the target is labeled 'Target'. The distance between them is labeled 'Distance'. The participant's hand is labeled 'Hand'.

Popular class of light blond dyes may cause birth defects

The image is a 4x4 grid of 16 small, low-resolution images. The images are arranged in four rows and four columns. The first row shows a person's face, a car, and some abstract patterns. The second row shows a person's face, a car, and some abstract patterns. The third row shows a person's face, a car, and some abstract patterns. The fourth row shows a person's face, a car, and some abstract patterns. The images are very small and blurry, making it difficult to identify specific details.

## Probe: Europe aided CIA on secret jails

WASHINGTON, Jan. 10 (AP) — A new report from a U.S. Senate panel says that the CIA and its European allies were involved in a secret program of torture and imprisonment of suspected terrorists in the years after the Sept. 11 attacks. The report, which is the first of a two-part investigation, says that the CIA and its European allies were involved in a secret program of torture and imprisonment of suspected terrorists in the years after the Sept. 11 attacks. The report, which is the first of a two-part investigation, says that the CIA and its European allies were involved in a secret program of torture and imprisonment of suspected terrorists in the years after the Sept. 11 attacks.

# Madonna and Meryl dazzle in LA shows

LOS ANGELES (AP) — Madonna and Meryl Streep dazzled in Los Angeles on Tuesday, each performing at a different venue in the city's entertainment district.

Madonna performed at the Shrine Auditorium, where she sang to a crowd of about 15,000 people. She performed a set of songs from her latest album, "The Confessions of Mother Mary."

Streep performed at the Pantages Theatre, where she sang to a crowd of about 1,000 people. She performed a set of songs from her latest album, "The Meryl Streep Collection."

Both performances were highly praised by critics and fans alike. Madonna's performance was particularly notable for its energy and showmanship.

Streep's performance was also well-received, with many praising her vocal range and stage presence.

The two performances were part of a larger event in Los Angeles, which also featured other acts and a fireworks display.

The event was a success, with both Madonna and Streep receiving standing ovations from the audience.

The performances were a highlight of the night, and both artists were praised for their talent and dedication to their craft.

The event was a memorable one for all who attended, and it was a testament to the power of live performance.

Madonna's performance was a showcase of her enduring popularity and artistic evolution. She delivered a powerful and emotive set of songs that resonated with the audience.

Streep's performance was a testament to her versatility as an artist. She showcased her vocal range and stage presence in a way that captivated the audience.

The event was a celebration of live music and performance, and it was a night to remember for all who attended.

The performances were a highlight of the night, and both artists were praised for their talent and dedication to their craft.

## Megaworld clinches P7.2-B Chinatown deal

Project said to be biggest  
redevelopment dev't in Manila

By Business Inquirer

MANILA (PDI) — Megaworld Corp. has secured a P7.2-billion deal to develop a large-scale urban renewal project in Manila's Chinatown area, the company said on Monday.

The project, which is expected to be completed by 2015, will involve the construction of a new residential and commercial complex, including a hotel and a shopping mall.

The deal is a significant milestone for Megaworld, which has been working on the project for several years. The company said it is confident that the project will be a success and will contribute to the development of Manila.

## Peso breaches 53.51 on threat of Fed hike

By Manila Business

MANILA (PDI) — The Philippine peso fell to a new low of 53.51 against the US dollar on Monday, as investors bet on a US Federal Reserve interest rate hike. The peso's decline was driven by a combination of factors, including the Fed's hawkish stance and the weak performance of the Philippine economy.

The peso's decline has raised concerns about the impact on the Philippine economy, particularly in the areas of inflation and foreign investment.

## Planned MRT link to airport gets support of airlines

By Business Inquirer

MANILA (PDI) — The proposed MRT link to the Ninoy Aquino International Airport (NAIA) has received strong support from the airlines industry. The airlines have expressed their support for the project, which is expected to improve the connectivity of the airport and reduce travel time for passengers.

# Uniform tax rate to cost gov't P17B

BPO workforce seen hitting 1M-2M in 2010

By POLO AND P. MOORE

WASHINGTON, D.C. (AP) — A new study by the Congressional Budget Office says a uniform 15 percent federal tax rate on corporate income would cost the government \$17 billion a year. The study also says that the federal government would lose \$1.7 billion a year in revenue if it eliminated the corporate tax. The study says that the federal government would lose \$1.7 billion a year in revenue if it eliminated the corporate tax. The study says that the federal government would lose \$1.7 billion a year in revenue if it eliminated the corporate tax.

By August 1, 2010, the BPO workforce is expected to hit 1 million to 2 million, according to a new study by the Congressional Budget Office. The study says that the federal government would lose \$1.7 billion a year in revenue if it eliminated the corporate tax. The study says that the federal government would lose \$1.7 billion a year in revenue if it eliminated the corporate tax.

# Exchange unlikely to meet brokers' ownership cap by July

By MICHAEL J. BAKER

NEW YORK (AP) — The New York Stock Exchange is unlikely to meet the Securities and Exchange Commission's deadline to reduce its ownership by brokers to 10% by July, according to sources familiar with the matter. The exchange, which is owned by its members, is currently owned by about 1,000 members, many of whom are brokers. The SEC has been pushing the exchange to reduce its ownership by brokers to 10% to prevent conflicts of interest. The exchange has been working on a plan to reduce its ownership by brokers, but it is not clear if it will be able to meet the deadline.

## Why Valera?

Figure 1 is a line graph with 'Number of trials' on the x-axis (ranging from 0 to 10) and 'Number of correct responses' on the y-axis (ranging from 0 to 10). The data points are plotted at (1, 1), (2, 2), (3, 3), (4, 4), (5, 5), (6, 6), (7, 7), (8, 8), (9, 9), and (10, 10). A solid line connects these points, showing a linear increase. A dashed line represents the identity function where the number of correct responses equals the number of trials.

**H**ello there guys  
welcome to  
part 4  
of our  
Flashes.

1

1. The first step is to identify the problem.
 2. The second step is to define the problem.
 3. The third step is to analyze the problem.
 4. The fourth step is to develop a solution.
 5. The fifth step is to implement the solution.
 6. The sixth step is to evaluate the solution.
 7. The seventh step is to monitor the solution.
 8. The eighth step is to maintain the solution.
 9. The ninth step is to improve the solution.
 10. The tenth step is to document the solution.

## Vogue to the music

[illegible]

May 2009

7 X 7

It's a 7x7 grid of numbers, with the numbers 1 through 7 repeated in a pattern that allows for combinations of three numbers to be selected.

1	2	3	4	5	6	7
2	3	4	5	6	7	1
3	4	5	6	7	1	2
4	5	6	7	1	2	3
5	6	7	1	2	3	4
6	7	1	2	3	4	5
7	1	2	3	4	5	6

1. The first step is to identify the problem. This involves understanding the situation and the goal.

Whether you  
decide to go  
old school  
or new school,  
it's just time to  
go—shopping,  
that is.
